HTML, CSS, JavaScript, JQuery, MySql, MongoDB, Node.js, React.js, Express, Bootstrap, Bulma.io, AJAX, Handlebars

PROJECTS

Superhero Search | https://github.com/tsgrewing/Superhero-Search **|**
https://tsgrewing.github.io/Superhero-Search/

- Web app that allows users to search for a superhero, and then populates a comic book themed page with information about the character along with gifs based on their name.
- Handled the design of the page, and helped with the functionality of the chart, auto-complete search feature, and the api interactions.
- HTML, CSS, Bulma.io, JavaScript, AJAX, chart.js

Code Quiz | https://blooming-ridge-74846.herokuapp.com/ **|**
https://tsgrewing.github.io/project-2/

- An app that acts as a dashboard for Dungeons and Dragons games, with info on spells, monsters, equipment and characters, as well as the ability to "roll" dice and display a map.
- Styled the app, handled the MySQL and API interactions
- HTML, CSS, JavaScript, MySQL

EXPERIENCE
